

PROJECT BRIEF

Clean Ports, Clean Oceans:
Improving Port Waste Management
in the Philippines

October 2020 - September 2023

WORKING TOWARDS A VISION OF NO PLASTICS IN NATURE BY 2030

Engagement with
all stakeholders

Businesses:
Engage and educate

Entrepreneurial
Solutions

Community engagements
and inclusive conservation

OUR SELECTED PORTS

- Manila North Port
- Port of Batangas
- Cagayan de Oro Port

OUR PROJECT GOALS

Work towards 50% reduction of plastic waste in at least three ports in the Philippines

Input to the national action plan on port waste management to highlight the importance of the port industry in addressing plastic pollution.

Project documentation to enable scaling up in other ports in the world (develop a framework that can be replicated in other ports in the Philippines and around the world.)

OUR WORK

WWF's No Plastics in Nature initiative works with cities, ports, businesses, communities, and policy makers to stop the flow of plastics entering nature by 2030 through the elimination of unnecessary plastics, doubling reuse, recycling, and recovery, and ensuring that the remaining plastic sourced responsibly. You can learn more about our work here: <https://wwf.org.ph/what-we-do/plastics/>
